SKILLS & TOOLS

Technical Skills

Angular, React, Next.js, Tailwind CSS, HTML5, CSS3, JavaScript, TypeScript, NestJS, MongoDB, Redux, NgRx, ElectronJS, Ionic

Technical Tools

Jira, Slack, Microsoft Teams, Git, GitHub, Postman, Docker, Swagger, Figma, Adobe XD

Soft Skills

Test-driven development, code reviews, mentoring junior developers, collaborative problem-solving, effective communication, agile workflow adaptation, debugging and troubleshooting, continuous learning

EXPERIENCE

Senior Full Stack Developer - The KPI Institute – Australia

January. 2025 - Present

- Delivered reusable React/Next.js components for LMS platforms cutting feature dev time by 40%.
- Refactored legacy styles and JS into modular code improving maintainability and onboarding.
- Shaped scalable architecture decisions and accelerated release timelines by 30%.
- Led testing strategy resulting in a 99.9% bug-free release across multi-role user flows.

Frontend Team Lead - Retail Direct Group - Lahore

January. 2024 - December. 2024

- Headed E-Commerce frontend team; halved dev cycle times via strategic mentorship and modular builds.
- Migrated one of UK's major E-Commerce sites from Magento to Next.js 13 - tripled load speed and improved SEO.
- Migrated flagship site from Magento to Angular 18 architecture using lazy loading and caching strategies; improved Lighthouse scores by 70%.

Full Stack Developer - DEPA Interiors – UAE

January. 2023 - December. 2023

- Built a low-code/no-code enterprise app store with dynamic UI features like drag and drop Form builder and Active Directory-auth integration.
- Delivered workflow automation system for app modules with PDF generation, audit logs and approval pipelines.
- Engineered event platform for Pakistan Endocrine Society with 1000+ attendees.

Front End Developer - Solis Solutions & BlockyFy - Islamabad

October. 2021 - December. 2022

- Built NFT/social media platform UI in React with 35% engagement boost.
- Co-developed secure crypto wallet with real-time transactions and API integration.
- Optimized Redux patterns to improve state handling and app responsiveness.
- Enforced code quality via testing, reviews and scalable architecture practices.
- Delivered real-time payments and API integrations for dynamic content

Full Stack Developer (Freelance).

February, 2020 - Jun. 2025

- Built client-ready websites, FYP's, business sites and custom CMS solutions.

FEATURED FREELANCE PROJECT

Orderly Dashboard – *POS & Inventory Management Dashboard + Ordering Mobile App*

Tech: Electron JS 35, Angular 19, Ionic, Node.js, MongoDB, WebSockets, BullMQ, Swagger

- Built an Electron-based POS and inventory management system with real-time stock tracking, live push alerts, and offline support.
- Integrated mobile order placement app (Ionic/Angular) syncing with the main dashboard via WebSockets.
- Developed reporting modules: email reports, Excel exports for orders, inventory, and recipes.
- Implemented ESC/POS-based receipt generation and custom printer integrations, streamlining checkout.
- Enabled automated alerts for stock thresholds and low-inventory scenarios.

EDUCATION

Institute of Space Technology, Islamabad

BS, Space Sciences, January. 2020

LICENSES & CERTIFICATIONS

Front-End JavaScript Frameworks: Angular – 2021 - Hong Kong University of Science and Technology

Front-End Web UI Frameworks and Tools: Bootstrap – 2021 – Coursera

Server-side Development with NodeJS, Express and MongoDB – 2021 - Hong Kong University of Science and Technology

HTML, CSS, and JavaScript for Web Developers –2020 – Johns Hopkins School of Engineering
